# State Adopted Curriculum

California Department of  
**EDUCATION**

## ➤ **English Language Development**

Information to help students achieve progressive levels of mastery so that they may communicate effectively in English and, ultimately, participate fully in society and the world of work.

## ➤ **Mathematics**

Information that all students in California public schools should know and be able to do in mathematics, emphasizing computational and procedural skills, conceptual understanding, and problem solving.

## ➤ **Science**

Information that represents the content of science education and includes the essential skills and knowledge students will need to be scientifically literate citizens in the twenty-first century.

## ➤ **History-Social Science**

Information that defines the knowledge, concepts, and skills students should acquire at each grade level.
